LEVEL UP YOUR EMPLOYEE ENGAGEMENT AND CSR PROGRAM THROUGH THE CIVIC CIRCLE

What worked for employee engagement and CSR campaigns in 2019 isn’t what works now. The world has changed, and your programs probably need to evolve to keep up. Mobilizing your colleagues to create community change is about more than big volunteer events; it requires new definitions and approaches to civic engagement. Points of Light, a nonpartisan, global nonprofit organization, with over 30 years of history, and a network that spans 177 cities in 38 countries, is ready to help.

The Points of Light Civic Circle is a framework for doing good in many forms and can be the key to unlocking the next phase of growth or evolution for your employee engagement program. In April 2022, Points of Light’s Global Civic Engagement Research found that the top three civic actions taken globally are listening and learning, using their voice, and volunteering. Employees are actively looking to their employers to bring additional forms of civic engagement into the workplace conversation. Let Points of Light help engage your employees through the opportunities below.
