

# LOOKING AHEAD: PROGRAMS TO GET EXCITED ABOUT

## POINTS OF LIGHT Civic Circle® Pilots

Over the next two years, Points of Light will pilot Civic Circle adoption and activation in three ways: through an issue area, a geographically-specific initiative and a focus on a single element of the circle. This is a living project, so stay connected with us for updates, new tools and outcomes that will help support nonprofits and NGOs in your everyday work. Want more information? Reach out to Chief Programs and Networks Officer Elizabeth Schwan-Rosenwald at [eschwanrosenwald@pointsoflight.org](mailto:eschwanrosenwald@pointsoflight.org).

### Issue Area **DISASTER**

We will leverage our expertise as a convener to build opportunities for thought leadership and coordinated resiliency efforts. Key milestones will include the launch of the Allstate Disaster Toolkit, the 2024 Social Impact Summit in Warsaw, and the establishment of a digital response offering.

### Location **HOUSTON**

We will build a strategy for citywide integration of the Civic Circle, with key milestones including the launch of a Learning Council of Houston area leaders to serve as champions; development of capacity building and new nonprofit Civic Circle products; and the creation of a talent development program for the next wave of civic leaders.

### Element **VOICE**

We will expand supports for Daily Point of Light honorees and offer new advocacy resources to the social sector in order to harness the legacy of President George H.W. Bush in honoring young changemakers. Our pilot design will focus on supporting Daily Point of Light honorees and other NGOs with resources, training and learnings for increased social impact advocacy.

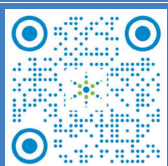

## UNDERSTANDING THE WHY OF THE **CIVIC CIRCLE**

The Civic Circle is a framework that represents a person's power to lead, lend support and take action for causes they care about and lead a civic life.

The Civic Circle helps people connect to opportunities and understand that doing good comes in many forms.

We believe a person who lives a civic life has a greater sense of social responsibility, healthier relationships and is more inclined to want a just and equitable society.

Through the social sector, individuals can engage in one or more of the Civic Circle actions. A more robust, resilient sector furthers our goal of empowering individuals to create positive change.
